DETAILED ACTION

Drawings

1. The drawings are objected to because Figures 1-6 should have appropriate labels or designations for a complete understanding of the invention as claimed.

Correction is required.

Specification

2. The numbering of claims is not in accordance with 37 CFR 1.126, which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Mis-numbered claim 16 has been renumbered as claim 15 accordingly; for the above reason "claim 16" in dependent claims 2, 5, 6, 8, 11 and 12 has been replaced by "claim 15".

Allowable Subject Matter

3. Claims 15 and 2-14 are allowed.
4. The following is an examiner's statement of reasons for allowance: The invention as now claimed with respect to claim 15, is not rendered obvious in view of the prior art of record. The prior art of record teach removable displays as well as well as changeable or replaceable components for portable communications devices. The prior art of record, however, fail to teach or suggest alone or in combination an appliance that include an indicating device and a decorative part as well a means forming a wall

Art Unit: 2682

having an outer surface with a central region and an inner surface with the wall having an edge region which surrounds a throughgoing opening and a means for releasably connecting the decorative part with the edge region of the appliance independently from the indicating device so that that the decorative part can be removed from the depression of the edge region of the wall without the indicating device and replaced by another decorative part inserted in the depression of the edge region of the wall.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Oliwa et al. (4,856,088) discloses a radio with removable display but fail to disclose the device having an edge region which surrounds a throughgoing opening provided with a depression which serves to receive the decorative patent as pointed out by Applicant on page 5 of amendment filed on 11/25/98.

Slipy et al. (5,848,152) and Mischenko (5,982,881) discloses interchangeable faceplates for communication devices.

Lebby et al. (6,115,618) and Harris et al. (6,009,336) discloses removable displays for radiotelephones.

Maatta et al. (5,768,370) discloses a user changeable cosmetic phone interface.

Art Unit: 2682

Petrella et al. (5,745,566) discloses a communication device with removable elements.

Kunert (6,031,524) discloses a handheld user portable terminal with user replaceable components.

Nishida et al. (5,842,116) discloses a radio device with a replaceable display section.
